St Andrews Studies in  
Philosophy and Public Affairs

## Endorsements for the writings of Elizabeth Anscombe and the books in this series

"It is difficult to exaggerate the interest and importance of making available Elizabeth Anscombe's unpublished writings and some of her published work that it has been difficult to get hold of recently. The editors and the publishers have done philosophy a great service." **Alasdair MacIntyre**

"Elizabeth Anscombe has been described as the greatest woman philosopher of all time. That may well be true. What is certain is that in the latter half of the twentieth century Anscombe could hold her own with any philosopher in the world." **Anthony Kenny**

"I met Elizabeth Anscombe in 1960, and was overwhelmed by her brilliance. Since then I have been impressed by the philosophical and human depth of her work time and time again. She was truly one of the great philosophers of the twentieth century." **Hilary Putnam**

"Elizabeth Anscombe was the most important of Wittgenstein's pupils, with an intellect as great and wide-ranging as her teacher's. She thought deeply, wrote beautifully, and was never taken in by pretence." **Roger Scruton**

"A writer of immense breadth, authority and penetration." **Mary Warnock**

"The most brilliant of Wittgenstein's students... an original and formidable philosopher." **Simon Blackburn**

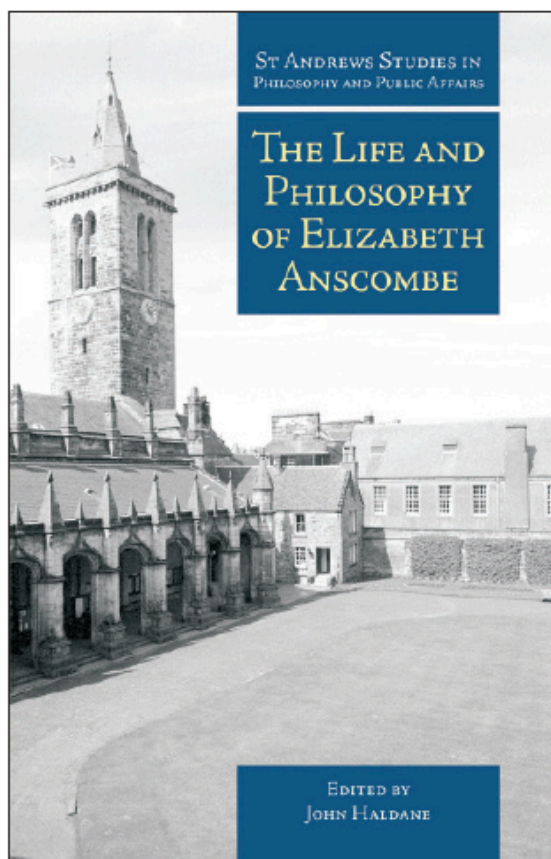

"One of the most distinguished professional philosophers of her generation."  
**Michael Dummett**

*"Highly interesting, lucid and challenging studies of key issues of public concern, ... a must for academic libraries."*, **Nicholas Rescher**, Founding Editor, *Public Affairs Quarterly*

*"Required reading for philosophers, political scientists, economists, and lawyers interested in ethically defensible public policies."*, **Hugh LaFollette**, Editor, *Oxford Handbook of Practical Ethics*

Elizabeth Anscombe's 1958 essay *Modern Moral Philosophy* contributed to the transformation of the subject from the late 1960s, reversing the trend to assume that there is no intrinsic connection between facts, values, and reasons for action; and directing attention towards the category of virtues. Her later ethical writings were focused on particular ideas and issues such as those of conscience, double-effect, murder, and sexual ethics. In this collection of new essays deriving from a conference held in Oxford these and other aspects of her moral philosophy are examined. Anyone interested in Anscombe's work will want to read this volume.

Contributors include Anselm Muller, Duncan Richter, Jose M. Torralba, Matthew B. O'Brien, Thomas Pink, Candace Vogler, Luke Gormally, David Goodill, David Albert Jones, Kevin L. Flannery, Roger Teichmann, Mary Geach, Edward Harcourt and John Finnis

*"The volume concludes with a magisterial paper by John Finnis . . . thus rounding off a collection in honour of a thinker whose wide range and influence are splendidly exhibited."* New Blackfriars

*"This is an excellent and unusually rewarding book... On every topic Anscombe has something important to say, characteristically something that badly needed saying both when she wrote and now... [T]he peculiar interest of these papers lies in the way in which philosophical considerations are brought to bear on theological issues and theological on philosophical."* Alasdair Macintyre, Notre Dame Philosophical Reviews

*"In addition to the usual hard-headed explosions of popular fallacies, she gives a moving account of what the presence of God can mean."* Christopher Howse, Spectator

*"[There is no attempt] to reduce the arcana of religion to something different but more articulable ... Anscombe embraces mystery, though not absurdity or contradiction."* Standpoint

*"Anscombe is acutely sensitive to the multiple layers of meaning found in religious language (something many present-day analytic philosophers of religion are curiously blind to)... These are essays of great sincerity and power, written with the philosophical care and precision for which Elizabeth Anscombe was justly renowned."* John Cottingham, TLS
